ROSENAU BROS.,
KINGS OF LOW PRICES. PROPRIETORS BEE HIVE

JOLLY BICKER.
Three smart young men, and three nice girls—all lovers, true as steel—
Decided in a friendly way
To spend the day sweetly
They started in the early morn.
And nothing seemed amiss;
And when they reached the leafy lanes
They were like
Two like
Two like
Two like

They wandered by the verdant dale,
Beside the rippling rill,
The sun shone brightly all the while;
They heard the song-bird's trill.
They sped through many a woodland glade—
The world was full of bliss—
And when they rested in the shade,
They sat
In two
In two
In two

The sun went down and evening came
A lot too soon, they said;
Too long they tarried on the way,
The clouds grew black overhead,
Down dashed the rain! They homeward flew,
Till one unlucky miss
Slipped sideways—Crash! Great Scott!
The lot
Were almost up the hill!

TEACHERS INSTITUTE.

Now in Session at the Maysville High School.

GOOD ATTENDANCE YESTERDAY

The Mason County Teachers' Institute opened Monday morning at the High School Building, with Superintendent Blattman in the chair.

The teachers were all highly pleased to meet Prof. J. C. Willis of Lexington in the capacity of Instructor. Prof. Willis will be remembered as the instructor some five years ago, so many of the teachers are somewhat familiar with his most excellent methods.

After singing from Foster, Hyman the instructor gave an interesting and instructive opening address, discussing at considerable length "The True Aim of Education," and "The Object and the Responsibilities of the Teacher," why illustrated by diagrams as he proceeded with his talk.

The afternoon session opened with remarks by the Secretary, Mr. Clarence Martin, followed by singing "Crowning Days." The discussion of "School Management" and the "Motives of the Teacher" was the first topic.

The subject "School Management" was discussed by Mr. J. S. Kay, who closed with the remark that he believed that the principal motive of teaching and kept them there was the desire to do good.

He was followed by Mr. W. H. Hicks who discussed the subject of "Physical Qualifications." Mrs. Clara K. Allen gave an interesting talk on "Moral Qualifications."

The subject "Moral Qualifications" was also discussed by Mr. W. H. Hicks, who made a strong plea for a higher and broader education of the teachers. He was followed on the same subject by Mr. E. Griffith.

"Social Qualifications of the Teachers" was discussed by Miss Greenough.

The subject "School Rules and Grounds" was discussed by Superintendent Blattman. He was followed by Mr. C. E. Turnipseed who gave a vivid description of the schoolhouse of several years ago and why contrasted it with the schoolhouses of the present day.

While far from being a lively speaker, Mr. Turner was certainly a vast improvement on what the schoolhouses were a few years ago. He was followed on the same subject by Mr. Connelly and by Miss Lulu Wood.

The subject of "The Teachers' Library" was turned into a lively speaker, Mr. Turner giving useful points on what should be found in the library.

Mrs. Cairnt discussed the subject "Kindergarten Methods."

Mr. Frank Owens gave plans for starting a district school.

Mr. Woodward gave a talk on "The Uses and Abuses of the Textbook."

Mr. Negandine gave a talk on one of the branches of organization, namely, "The Teaching of Pupils," which called forth one of the most interesting discussions of the afternoon.

After recess, which was followed by singing "Onward, Christian Soldiers," Prof. Willis gave an interesting talk on "Advanced Reading."

Women's 25 Cents....
Stockings....a Pair

Women's Stockings at 25c. a pair. It happens in this way. Hosiery comes through the store directly from maker to wearer. Middle profits do not figure in this transaction. Hence we can offer at 25c. stockings in plain black, black with white and split feet, the latest things in fancies, drop stitch, plain knit and foot patterns. Don't you think you'd better be early?

Corsets.

It's a singular taste that cannot be suited in the varied collection of Corsets. We call the Flexigone the best—that verdict after years of experience and search for the best. Two styles and two prices, \$1. \$1.50. Then there are some other good sorts that are particularly low in price.

At 50c. and 75c.

Corsets of net batiste coutil in long or short waists. \$1. J. B. B. for long. Not all sizes in J. B. B. At \$1.50 a corset of German percale. Silk trimmed, high or low bust, well boned and perfect in fit. At \$1.50. Corsets of cord elasticized linen reduced from \$1.50.

D. HUNT & SON.

reading several selections and calling on the teachers for criticism. In reading readings made a strong plea for a complete and thorough knowledge of the subject matter in hand. "Spelling," the last subject considered for the day, was discussed by Mr. Martin, who gave methods of teaching pronunciation. Mr. H. Thomas, who directed the writing and oral spelling, and Miss Murphy "The Use of the Dictionary."

After arrangements for today's program the Institute adjourned to meet again this morning at 10 o'clock.

BOYS

We dislike mentioning it, but going back to school time is nearing. Some of you will go to this place, some another, but no place where you can be fitted out with your school wardrobe like we can fit you out here.

Our Fall Line of Clothing, Gents' Furnishing Goods are here; our Shoes are also in.

We will mention a few of the makers whose Clothing we sell: Stein-Bloch Co., L. Adler Bros. & Co., Ham-burger & Sons, H. Kuhn & Sons.

Our Furnishings are from the celebrated house of Wilson Bros., the greatest in the land.

Our Shoes from Hanan & Son, Packard & Field and Smith & Stoughton. Those who know the class of goods the above firms manufacture need no invitation.

We are after those who have never bought goods made by these manufacturers. We want YOU to look us over. We will show you merchandise few clothing or shoe stores can show you. Our prices are "right."

Bakers' Bread.
The bakers' bread of today is not the bakers' bread of twenty years ago. Science and study has developed this food product more than any other manufactured article of consumption. The F. H. Traxel Company, of this city is now the leading bread bakers of this section, simply because they have given study and close attention for years to making bread that will please the public. Even now there is an impression that prevails among the few that bakers' bread is unwholesome and unfit for family use. We will admit that there are many bakers who make their bread the same as their forefathers did years ago, and hence this impression is justifiable to those who never had an opportunity to get bread made by modern processes and by bakers who thoroughly understand how to make bread that will be praised for its merits. The F. H. Traxel Co. has done its share to supply this section, enabling people to get bread that will meet with every requirement. We make the assertion that this bread will meet with every requirement because we have evidence of it, and the evidence is the increasing demand wherever sold.

Bakers' Bread.
The bakers' bread of today is not the bakers' bread of twenty years ago. Science and study has developed this food product more than any other manufactured article of consumption. The F. H. Traxel Company, of this city is now the leading bread bakers of this section, simply because they have given study and close attention for years to making bread that will please the public. Even now there is an impression that prevails among the few that bakers' bread is unwholesome and unfit for family use. We will admit that there are many bakers who make their bread the same as their forefathers did years ago, and hence this impression is justifiable to those who never had an opportunity to get bread made by modern processes and by bakers who thoroughly understand how to make bread that will be praised for its merits. The F. H. Traxel Co. has done its share to supply this section, enabling people to get bread that will meet with every requirement. We make the assertion that this bread will meet with every requirement because we have evidence of it, and the evidence is the increasing demand wherever sold.
